COVERTECH's obligation under this Limited Warranty is limited solely to the repair or replacement of, the defective products at COVERTECH's option. COVERTECH will not be liable for any loss or damage arising from the use or inability to use our products, or abuse of the products. **rFOIL Ultra products include rFOIL Ultra CBF (Bubble/Foil/Bubble), and rFOIL Ultra NT Radiant Barrier.**

Important Notice Regarding all White-Facing Products:

ONLY the following products are warranted against UV-related degradation or flaking of the white polyethylene facing...rFOIL 2500 Series (Metal Building Insulation), and 6000 Series (rFOIL 286-Metal Building Insulation).

- These products are treated with UV inhibitors, which are resin additives designed to protect the white poly facing from degradation from exposure to ultra-violet radiation. Any exposure to sunlight, either direct or indirect, exposes the material to UV radiation in varying degrees. Prolonged exposure can lead to gradual and continued degradation of the facing surface.
- Non-treated white polyethylene contains no UV inhibitors, and should never be installed where the material could be exposed to any outside light. UV exposure can occur in any lighted environment, whether from direct sunlight or indirect natural lighting. Indirect reflection of UV rays can travel via windows, semi-transparent panels, skylights, open doors and walls, and by other means. Over time, this continued exposure can break down the molecular structure of surface material, resulting in degradation and flaking of the surfaces. The addition of UV-inhibiting resin additives can protect the facing material from such degradation.
- Installation of any rFOIL product into an environment with exposure to direct or indirect UV radiation, such as buildings containing items listed above, will void any and all Coverttech warranties and performance estimates. Coverttech will not be responsible for installation errors by contractors, home owners, and incorrect product obtained from our distributors and dealers. Distributors and dealers of Coverttech products assume the responsibility of communicating the proper information to their customers, and to ensure they customers purchase and/or install the proper rFOIL product for their application.

DISCLAIMER

Coverttech Fabricating, Inc is not liable for the use, misuse or incorrect selection, or improper installation of its products. Check your local building and zoning codes, or consult a qualified local specialist for proper product selection and compliance prior to installation. Coverttech makes no claims that product selection and construction methods are universally accurate. The selection of the proper product, and the correct installation method, is ultimately the responsibility architect, builder, contractor, and building owner.

THIS LIMITED WARRANTY SET FORTH HEREIN IS EXCLUSIVE AND COVERTECH FABRICATING EXPRESSLY DISCLAIMS ALL OTHER WARRANTIES, WHETHER WRITTEN, ORAL, IMPLIED OR STATUTORY INCLUDING BUT NOT LIMITED TO ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. NO SPECIAL, INDIRECT, CONSEQUENTIAL, INCIDENTAL, OR EXEMPLATORY DAMAGES HOWEVER ARISING, DIRECTLY OR INDIRECTLY, MAY BE RECOVERED AGAINST COVERTECH FABRICATING, INC.

I certify that I have read and understand the terms and conditions set forth herein.
